The insanely tightening "Mortal Kombat X" has already become the tenth of the strategy that deserves the most popular series about merciless battles. The story begins after the events of the previous game - the epic failure of Shao Cana, and lasts for twenty-five years. Since there are many earthly foreheads in those remote times, now their followers continue to be good. Shinnok, senior fallen deity, concluded in the lower world, finally turns out to be freedom. And immediately rushes to capture a lacquer piece - the earth's kingdom. Help the daring shinnoku Kuan Chi, crowds of demons and a whole army of the rebels of the dead. Put an end to the dishonest excuses of "funny" company take Sonya Blade, Raiden, Johnny Cage, Kenshi and Fujizh. Meanwhile, the civil war boils for power over the outside world. In total, there are 24 characters in the game, and each of them comes from 3rdivation. Depending on the choice of variations, such characteristics are changed as a duel strategy, special combat and combo. The developers brought a mass of heroes who are not familiar with the previous parts of the fighting parties. Among the novices - the insect-like Di'vor, passionate Cassie Cage, the militant Kotal Kan and the mysterious Kun Jin. The total number of unique arenas in Mortal Kombat X is thirteen, some of them are embodied in two different versions. Locations are as follows: bay, refugee camp, emperor courtyard, destroyed city, market of the outside world, coutane jungle, crossroads, Kuan Chi Fortress, Dead Forest, Heavenly Temple, Temple Lin Kui, Training Room and Chamber of Jeans. In the course of action, the hero knows how to use many primary elements. So, he is able to repel from the nearest wall, awning or branch of the tree, to arrange a number of surrounding items and even connect to the participation of animals. For example, it is allowed to beat the opponent branch lying in the arena, as well as to rush in it by the viewers of the fight. The player is offered a number of modes: "The plot", "surviving", "King of the Mountains", "Check Good luck", "Estimated 1x1", "Living Towers" and "Fractions Wars". Also in the game introduced innovative technique "Fractality": defeated the enemy, the player can carry out his hard achievement. The most picturesque fights, a variety of spectacular arenas, a wide range of interesting actors - all this, dressed in a high-quality visual shell, makes a truly inimitable game! Below you can download hackle Mortal Kombat X in which there will be a lot of money, endless souls and many other hacks at your discretion. Download Mortal Kombat X on Android (Dropping: 265359) Hacking (Dropping: 195805) One of the most anticipated games of 2015, here we made an overview of new characters in Mortal Kombat X, and today we will analyze hacking this game with the help of cheat codes on Android and iOS Devices. If you are already growing on the Internet in search, mods and Khakov On the game, you don't need to explain anything, you already realized that with the game there was a full fatalith. We slipped a new version with the new shell of Injustice, and also loved ones heroes selected. To open your favorite since childhood you need to play not one week, or pay close 1000 rubles, we suggest you do not rush spend, and use secret codes for money. Another minus is - taping taping. From my childhood I remember some combinations of heroes, and it was they who solved the outcome of the battle, now enough to watch a brief descriptions of fighters Teams and immediately clear who will win. There is no skill game, the developers floated behind the wave of fashion and made a simple tapalka. Yes, there is no in the game multiplayer while playing with the computer, learn how to fight, go to fight real people. But with those battles the outcome of the battle will depend exclusively from pumping, And this is not interesting. Not interesting, but since people are looking and ready to spend some time on the game, our debt is her backfe, as always, simple, does not require jumps and straight from the developers. You can get the desired amount of resources (shower and coins) Just entering codes in a certain way.
